**Allowance**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/19/2006 has been entered.

***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: Claim 1 recites a method for asynchronously brokering of messages between middleware computing systems that performs a first conversion on a message from an application format to a middleware format at a middleware system, then performs a second conversion from the middleware format to a standard format associated with a middleware brokering server, then performs a third conversion from the standard format to a format associated with a second middleware system, and finally performs a fourth conversion on the message to a format understood by an application connected to the second middleware system. This two-tiered system, including a first tier for communicating within a middleware system and a second tier for communicating between middleware systems, was not found to be anticipated or rendered obvious by the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
